

Fact Sheet

Intella®: Smarter eDiscovery and Forensic Investigations

Innovative, powerful, and simple – exactly the tools you need to conquer today's data challenges and deliver world class results.

Process. Search. Filter. Produce. Simple.

**Exponential
Productivity**

**Market Leading
Power**

**Industry's Best
Value & Pricing**

Key Features

- Highly user-friendly interface and market-leading indexing speeds
- Insight Analysis feature lists the most notable user, system and Internet artifacts, simplifying finding important data and improving examination time and thoroughness of any investigation
- Batch documents and assign to reviewers for subjective coding for legal review
- Built-in instant messaging so co-workers can discuss and share documents within the tool during investigations
- Automatic extraction of notable registry artifacts. This can save the examiner many hours of manual artifact extraction and data conversion to human readable format
- Search and preview email, attachments, archives, headers, documents, embedded images, cellphones and metadata
- Load file support for all major legal export formats
- Task wizard to define and automate processing steps
- Index forensic image files S01/E01/Ex01/L01/Lx01/AD1/ISO and DD and FTK images. Support for Windows and MacOS file systems, GPT and MBR partitions, ISO and others.
- Multiple search visualization options including Intella's unique cluster map, geolocation, social graph, timeline and email threading.
- 24/7 support via our support portal
- Exceptional value – fully featured software at a fraction of the cost of similar products

Customer Use Examples

Intella has helped some of the world's best known organizations to dramatically reduce the time, expense and personnel needed for their case loads.

- A Fortune 500 retailer was able to bring e-discovery functions in-house and save millions due to Intella's easy-to-use functionality.
- The compliance department of a global financial institution conducts internal reviews of employee emails and files with surprising ease because of Intella's low resource/highly efficient architecture.
- A major international accounting and consulting firm increased customer satisfaction by providing their legal clients with Intella Connect to review their cases through a web-browser.
- A UK law enforcement agency can simultaneously review evidence on a single case with Intella Team, shortening processing, searching and analyzing time e-Discovery consultants worldwide have increased billings by offering clients outsourced e-discovery services enabled by Intella Connect.
